Existing BS CPE + MS Cybersecurity Program

Five-Year BS/MS Program in Computer Engineering

Full-time undergraduate students with a minimum GPA of 3.00 have the option of applying for admission into the five-year combined Bachelor of Science in Computer Engineering/Master of Science in Computer Engineering or the Bachelor of Science in Computer Engineering/Master of Science in Cybersecurity program.

Students will earn a BS degree after four years of study and complete the 30-credit requirement for the MS degree with one additional year of work.

Typical Five-Year Plan

- Complete three graduate courses (9 credits) during senior year.
- Complete the remaining 21 credits of graduate study over the 12-month period following the senior year.
- All graduate courses in this program must be taken at Villanova University.
